Hello,

The US EPA has prepared the following information resource:

EPA is committed to working closely with response agencies and state and local officials to ensure the safety of citizens, respond to concerns and to evaluate impact to water contaminated by the Gold King Mine Release. EPA is sharing information as quickly as possible with the public as experts work to evaluate any effects the spill may have on drinking water, public health, agriculture, fish and wildlife. Please see our website for the latest information: <http://www2.epa.gov/goldkingmine>  
Regular updates will be posted as they are available.  
EPA Hotline: 844-607-9700 (toll-free)

Comments: So what happens when the river bottom gets kicked up?? What about my well water you guys have done nothing to help the locals your publics meetings where and a joke you told us nothing but the EPA was sorry. This is the only way I have been told to contact this sad organization is my well water safe?? Who knows I would like to know thanks
